## Hair extensions

When you think about celebrities and hair extensions, it's usually Britney Spears' old matted mane that springs to mind. But the truth is heaps of stars like Lindsay Lohan wear hair extensions – and you'd never even know it! So if you're thinking about loading up your locks, make sure you do it right.

### WHY GET THEM?

Hair extensions aren't just about getting longer tresses – they also give body and movement to limp, damaged or lifeless hair and can also be used to create cool colour or texture effects.

### HOW LONG DO THEY LAST?

Good quality extensions can last between four and six months, even longer if you look after them properly.

### DOS AND DON'TS

#### DO

- ✓ Brush hair twice daily with specially provided hairbrush.
- ✓ Sleep with locks in a soft, low braid to prevent tangles.
- ✓ Ensure the hair extensions are high-quality human hair from an ethical source.

#### DON'T

- ✗ Shampoo for at least 48 hours after application.
- ✗ Apply heated styling instruments directly to the hair bond. Always keep styling tools at least three centimetres away.
- ✗ Use products that contain silica or sulfur, such as anti-dandruff shampoos.
- ✗ Use cheap, synthetic hair extensions.

### ✓ LINDSAY

Investing in high-quality human hair will ensure natural, flowing locks like Lindsay's

### ✗ BRITNEY

The singer shows what can happen when hair extensions aren't properly looked after

### What you need ...
